Dear [MP name]

**End Hunger UK in [AREA]**

I am writing on behalf of [GROUP NAME], who have members in your constituency, to ask you to step up join us in stepping up to the plate to end hunger.

We have signed up to End Hunger UK, a national campaign founded with the belief that no one should have to go to bed hungry at night and the government – along with other partners - has a responsibility to play a role in ensuring everyone has access to adequate healthy food.

End Hunger UK has recently published a menu of 10 possible actions for the Government to take to tackle household food insecurity in the UK, and over the next year will be specifically focusing on:

- the need to measure the scale of food insecurity in the UK;
- fixing the social security safety net in order that people don’t end up destitute because of unfair sanctions or avoidable delays in receiving benefits to which they are entitled;
- ensuring that children have the best start in life, through the provision of free meal provision 365 days a year, including – where necessary - during school holidays.

With recent research showing that 1 in 10 children in the UK is at risk of severe food insecurity, and food price inflation increasing, it looks as though, unless the government steps up and takes responsibility, more people will go hungry.

I would be grateful if you would get back to us and let me know when our group can meet up with you and discuss how we can tackle hunger in [CONSTITUENCY] and across the UK.

Yours sincerely
