

A Guide to Add Photos to

Your *DIY Fundraising Page*

On your personal *DIY Fundraising Page*, you can add photos to make the page more personal and tell the story of your project to your friends and family.

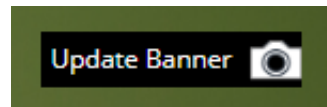

You can add a profile and header photo or choose sample images from [this online folder](#).

To add a photo to your profile photo select the camera image . Then select

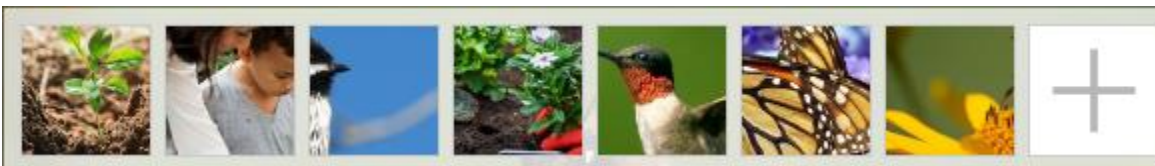

add image  . To upload an image from your computer.

The suggested image size for profile images is 120 X120 pixels.

To add a photo to your banner photo select

You can also choose from the sample banner images or upload your own. The suggested image size for banner images is 1170 x 338 pixels

You can also add photos to the body of your text by clicking on the blue pencil button

 to edit and then click the picture button  to add a photo. You can add photos of yourself, your project at the beginning, in the middle and of your completed project, or share a photo of your favourite place in nature.
