DONATIONS ARE CRITICAL TO SERVE VETERANS IN CRISIS

by [insert name], Department Commander

Service is at the heart of all we do as VFW Auxiliary members. We understand the importance of service because we see the sacrifices made by our veterans, service members and their families.

I know you're proud to be a member and offer support to all who bravely serve and the families who love them.

Our desire to serve and to be here for each other moves us to act when there's a need. And right now we're seeing immense needs. Programs are stretched to their limits. Demand for resources keeps growing.

We need you to give. You already do so much, and we're very grateful. Please consider what you're able to contribute to go above and beyond for each veteran who needs us in this time.

With the level of crisis we see now, men and women who bravely served our nation are hit hard and facing huge challenges as they struggle to care for themselves and their families. Veterans who were already in difficult situations are now in even more urgent need of help.

Those in need may be people you know. That's why your donations are vital. The money stays here – when you give, you help veterans, service members and their families in our state.

Your ongoing support for our programs means so much. But these programs can't exist without you. Each one of us must play a part to serve the heroes and their families in our communities.

Thank you for your kindness and concern, and for providing critical assistance now. We're deeply grateful for your ongoing generosity. Your donations ensure we're here for local veterans, service members and their families when they need us most.
