

Week Four Challenge: Camp Cookin'

Make a s'more

What you'll need:

- Marshmallows
- Graham crackers
- Your favourite chocolate
- A heat source

Campfire Method

1. Toast your marshmallow to perfection—do you like it golden brown or burned to a crisp?
2. Meanwhile, place your chocolate on your graham crackers; we like to warm ours up beside the fire so the chocolate is extra melty!
3. Use two graham crackers to sandwich the marshmallow and pull it off the stick. Let everything melt together for a few seconds, and then tuck in!

Microwave Method

1. Assemble your s'more with a graham cracker on the bottom, followed by chocolate, followed by marshmallow.
2. Place your s'more on a microwave-safe plate and microwave on high for 15 seconds—or until the marshmallow puffs up.
3. Remove from microwave, top with the other cracker, and eat like a sandwich! Enjoy!

Bonus points: spruce up your s'mores! Why not add more ingredients and perfect your mega-s'more? Try adding caramel, M&Ms, chopped nuts, or anything else you can think of!

Please be careful when making campfires, using the microwave, and handling hot food. S'mores can get really hot! Ask an adult to help you!
